**Founded in 1995, Alpha Micro is a successful independent specialist franchised distributor of components for the Internet of Things and M2M**

We have helped customers to network-enable more than 2 million devices using various technologies ranging from simple dial-up modems and serial connections to sophisticated wireless solutions.

We are proud to be one of the companies who pioneered the concept of "design based" distribution, using our in-house software and hardware capabilities as a platform to sell our franchised components. Our design group offers a comprehensive technical support package ranging from simple application support through to complete turnkey designs.
